

Combat Turf Stress

with

MUSCLE™

High temperature, low humidity, floods and pest attacks stress plants, producing a negative effect on their metabolism and their ability to maximize photosynthesis.

Muscle benefits turf in 10 important ways.

- 1. Improves the interaction of plant roots with nutrients**
- 2. Drastically improves plant root growth**
- 3. Increases healthy soil microbes**
- 4. Reduces localized dry spots because of microbe activity on carbons**
- 5. Creates healthy soil for healthy plants**
- 6. Reduces plant diseases due to GeneResponder® activity**
- 7. Improves soil tilth for open pore space and structure**
- 8. Promotes superior turf color and quality**
- 9. Improves respiration cycle**
- 10. Ongoing use can lead to less water requirements**

Muscle is an a product from Monarch Scientific
distributed by Regal Chemical Company.
