

RegalKade® G

Granular Pre-Emergent Herbicide

Ornamentals
& Nurseries

Commercial & Residential
Landscape Beds

RegalKade® G is the most efficient and economical granular pre-emergent herbicide solution available. RegalKade G is safe for use over the top of established container and field grown ornamentals, conifers, hardwoods, and established perennial and wildflower plantings. RegalKade G contains prodiamine, which provides excellent control of grass and broadleaf weeds when used prior to weed seed germination.

Other benefits include:

- Broad spectrum weed control for nurseries and ornamental landscapes.
- Good residual activity for longer control.
- Safe on most established ornamental trees, shrubs, and flowers.
- Dustless, free flowing, and easy to apply.
- Very economical weed control option.

Features 1 Active Ingredient

- 0.5% Prodiamine

Applied year round.

Available in 50lb Bags
