Regal Fertilizer 38-0-0 100% BlueChip™	UF	BlueChip driven blend with enough Urea for quick greening and growth. Formulated to be applied at 200 lb./Acre and supply 1 lb. N and 0.5 lb. P/Acre and 0.5 lb. K/Acre. Ideal product to use where a soil test shows that P and K will become limiting factors affecting acceptable turfgrass quality.	2.19	2.19	0.00	0.00	1.75	1.75	0.00	0.00	1.51	1.51	0.00	0.00	1.31	1.31	0.00	0.00
Regal Fertilizer 42-0-0 50% BlueChip™	UF, Urea	Up front Nitrogen from Urea leads into the microbial release of Nitrogen from BlueChip. All fertilizer, zero filler. High-analysis blend allows for application rate flexibility.	2.38	1.19	0.00	0.00	1.90	0.95	0.00	0.00	1.63	0.82	0.00	0.00	1.43	0.71	0.00	0.00
Regal Fertilizer 33-0-0 75% BlueChip™	UF, Urea	BlueChip driven blend with enough Urea for quick greening and growth.	1.88	1.41	0.00	0.00	1.50	1.13	0.00	0.00	1.29	0.97	0.00	0.00	1.13	0.84	0.00	0.00
Regal Fertilizer 33-0-11 75% BlueChip™	UF, Urea, MOP	BlueChip driven blend with enough Urea for quick greening and growth. 3:1 Nitrogen:Potassium ratio. Ideal for instances where soil-test Potassium may become a limiting factor affecting acceptable turfgrass quality.	1.88	1.41	0.00	0.63	1.50	1.13	0.00	0.50	1.29	0.97	0.00	0.43	1.13	0.85	0.00	0.38
Regal Fertilizer 22-0-0 75% BlueChip™	UF, Urea	BlueChip driven blend with enough Urea for quick greening and growth. Formulated to supply 1 lb. Nitrogen at 200 lb./Acre spread. Ideal product to apply where soil test P and K are not limiting factors affecting acceptable turfgrass quality.	1.25	0.94	0.00	0.00	1.00	0.75	0.00	0.00	0.86	0.65	0.00	0.00	0.75	0.56	0.00	0.00
Regal Fertilizer 22-0-11 100% BlueChip™	UF, MOP	Nitrogen supplied 100% from BlueChip. Formulated to be applied at 200 lb./Acre and supply 1 lb. N and 0.5 lb. K. Good product to apply where a soil test shows that K will become a limiting factor affecting acceptable turfgrass quality.	1.25	0.00	0.00	0.63	1.00	0.00	0.00	0.50	0.86	0.00	0.00	0.43	0.75	0.00	0.00	0.38
Regal Fertilizer 22-0-11 50% BlueChip™	UF, Urea, MOP	BlueChip driven blend with 50% quick N from Urea and 50% slow N from BlueChip. Formulated to be applied at 200 lb./Acre and supply 1 lb. N and 0.5 lb. K. Ideal product to when upfront kick and extended feeding is desired and soil test shows that K will become a limiting factor affecting acceptable turfgrass quality.	1.25	0.63	0.00	0.63	1.00	0.50	0.00	0.50	0.86	0.43	0.00	0.43	0.75	0.38	0.00	0.38
Regal Fertilizer 22-0-22 75% BlueChip™	UF, Urea, MOP	BlueChip driven blend with enough Urea for quick greening and growth. Formulated to be applied at 200 lb./Acre and supply 1 lb. N and 1.0 lb. K in instances where a soil test shows that K is a limiting factor affecting acceptable turfgrass quality.	1.25	0.94	0.00	1.25	1.00	0.75	0.00	1.00	0.86	0.65	0.00	0.86	0.75	0.56	0.00	0.75
Regal Fertilizer 22-11-11 75% BlueChip™	UF, Urea, DAP, MOP	BlueChip driven blend with enough Urea for quick greening and growth. Formulated to be applied at 200 lb./Acre and supply 1 lb. N and 0.5 lb. P/Acre and 0.5 lb. K/Acre. Ideal product to use where a soil test shows that P and K will become limiting factors affecting acceptable turfgrass quality.	1.25	0.94	0.63	0.63	1.00	0.75	0.50	0.50	0.86	0.65	0.43	0.43	0.75	0.56	0.38	0.38
