

N - Nitrogen

SRT - Slow Release Technology

P - Phosphorus

K - Potassium

Greens Grade Blends			200 Lb. / Acre				175 Lb. / Acre				150 Lb. / Acre			
Fertilizer	Nutrition Source	Product Features	N	SRT	P	K	N	SRT	P	K	N	SRT	P	K
Regal GG 23-4-8	MU, AS, MAP, SOP	Greens grade fertilizer driven by Methylene Urea. Ammonium Sulfate supplies quickly available Nitrogen while MAP and SOP supply incremental Phosphorous and more Potassium for instances where a soil test shows that K may be a limiting factor affecting acceptable turfgrass quality.	1.06	0.50	0.18	0.37	.91	0.43	0.15	0.32	0.80	0.38	0.14	0.28
Regal GG 18-3-18	MU, MAP, SOP	Greens grade fertilizer driven by Methylene Urea. Potassium from Sulfate of Potash for increased solubility and turfgrass safety. Incremental Phosphorous and enough Potassium for instances where a soil test shows tht K is a limiting factor affecting acceptable turfgrass quality.	0.82	0.79	0.14	0.82	0.71	0.68	0.12	0.71	0.62	0.59	0.11	0.62
Regal GG 11-15-15	AS, MAP, SOP	Greens grade starter fertilizer excellent for early season applications and applications around aerification. Ammonium Sulfate supplies quickly available Nitrogen for up front greening and growth. Enough Phosphorous and Potassium for instances where a soil test shows that P and K are limiting factors affecting acceptable turfgrass quality.	0.50	0.00	.69	.69	0.43	0.00	0.59	0.59	0.38	0.00	0.52	0.52
Regal GG 5-20-25 w/ Shamrock	MAP, SOP	Greens grade fertilizer excellent for instances where a soil test shows that Phosphorous and Potassium are limiting factors affecting acceptable turfgrass quality. Shamrock enhances the uptake efficiency of applied Phosphorous and Potassium supplied by Sulfate of Potash offers increased solubility and turfgrass safety.	0.23	0.00	.92	1.15	0.20	0.00	0.79	0.99	0.17	0.00	0.69	0.86
Regal GG Sul-Po-Mag	0-0-22 18% Mg, 22% Sulfur	100% Sulfate of Potash-Magnesia greens grade fertilizer. Excellent source of Magnesium and Sulfur, and at 200 lbs./Acre will supply 1.0 lbs./M Potassium for instances where a soil test shows K is a limiting factor affecting acceptable turfgrass quality.	0.00	0.00	0.00	1.00	0.00	0.00	0.00	0.86	0.00	0.00	0.00	0.75
Regal GG SOP 0-0-50	0-0-50 + 17% Sulfur	100% Sulfate of Potash greens grade fertilizer. Excellent source of Sulfur and Potassium in instances where a soil test shows that S and K will be limiting factors affecting acceptable turfgrass quality.	0.00	0.00	0.00	2.30	0.00	0.00	0.00	1.98	0.00	0.00	0.00	1.73
