

# The RegalREPORT™

Based on Science, Balanced for Your Budget.

The RegalREPORT™ is a proprietary technology solution developed by **Regal Chemical**. Using this tool, we help you develop the right program to keep turfgrass, landscape ornamentals, and nursery stock healthy, pest and weed free, and thriving all year long.

Comprehensive programs can **optimize both agronomics and economics**, ensuring you efficiently allocate financial resources, address stress factors, and enhance fertility.

## Regal Programs Cover:

- Soil testing and nutritional needs
- Weed, insect, and disease management programs
- Soil moisture management programs
- Plant health products and biostimulants
- Early Order Program utilization
