

Pond Maintenance Options from SePro

SeClear

Algaecide and Water Quality Enhancer™

Algaecide and water quality enhancer in one

Captain XTR

Algaecide

Fight tough algae with Infusion technology

Komeen

Aquatic Herbicide

Quick, targeted control of nuisance aquatic weeds

SonarOne

Aquatic Herbicide

The leading aquatic herbicide to tackle the toughest nuisance aquatic vegetation - pellet formulation that delivers an effective dose to targeted plants

IRRIGATION PONDS

SeClear

Preventative algae control

1 app/Month at 3-5 gal/surface acre

Start in Spring before algae becomes a problem

Captian XTR

Hard to control algae and/or reclamation (including beginning program mid-season)

Rate: 0.6-3.0 gallons/acre-foot of water

Follow with SeClear for maintenance applications

Komeen

Aquatic weed control catch-all for ponds used for irrigation

Rate: See Label

Add diquat at a rate of 2:1 (Komeen:Diquat) for quick visible activity and larger populations (duckweed, watermeal, spikerush)

NON-IRRIGATION PONDS

Irrigation Pond Information Applies

SonarOne

Weed control in ponds NOT used for irrigation

Catch-all pellet/granular application

Rate: See label

Additional Products NON STOCK:

Harpoon G - Controls copper-sensitive plants without water use restrictions

Clearcast - Industry standard for cattail control

Eutrosorb - Phosphorus filtration technology

PhosLock - Patented phosphorus locking technology

Sonar Genesis - Longer lasting and faster acting/knockdown Sonar formulation
