

RegalREPORT™

BULLETIN

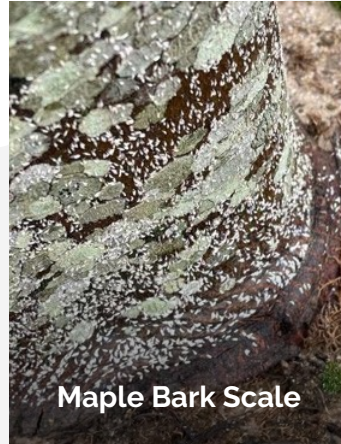

Ambrosia Beetle

EARLY SPRING is the perfect time to control and prevent damaging insects and fungal pathogens in field grown and container grown crops.

Maple Bark Scale

Maple Bark Scale

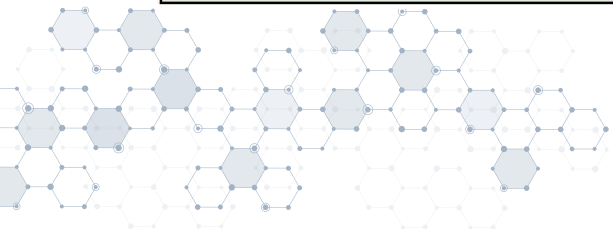

Bot Canker

Canker, Borers, and Scales that infect or attack early can damage your crop and take money out of your pocket. The good news is that they can all be deterred with a simple tank-mix and two applications!

For control of Cankers, Borers, and Scales	
Application 1	
Product	Amount per 100 Gal Water
DiAqua PS	32 oz
Avelyo®	8 oz
Avalon™	96 oz
If Maple Bark Scale is present, follow up 7 to 14 days later with:	
Acephate 90%	1 lb.
Defiance™	8 oz

Bot Canker

Avelyo™
Fungicide

Advance your rotation with a new DMI
Introducing Avelyo fungicide, the next generation in DMI technology that delivers broad-spectrum disease control with exceptional plant safety.

Contains pyriproxyfen, the active ingredient used in Distance® IGR.

INSECT GROWTH REGULATOR

EcoCore

DEFIANCE™
0.86 EC

DEFY INVASIVE INSECTS' LIFECYCLES

Defiance™ 0.86 EC contains pyriproxyfen, a powerful insect growth regulator that inhibits the egg, nymph, larvae and pupae development of its transaminar and penetrates both the leaf and outside, to reach the leaf underside, where insects feed.

Defiance 0.86 EC offers proven, outstanding life cycle control and long-lasting residual protection of flowering and foliage crops, ground covers, ornamental trees, indoor grown fruiting vegetables and more. The emulsifiable concentrate is compatible with current IPM practices and provides control as both a stand alone insect growth regulator, or as a tank mix partner with traditional adulticides. Plus, it comes in a convenient Tip-N-Pour container, so using Defiance 0.86 EC is as easy as it is effective.

KEY BENEFITS

- Highly Effective Life Cycle Control
- Extended Residual Protection that Lasts
- Reliable Translaminar Movement
- Outstanding Addition for IPM or IRM Program
- Easy-to-use, Tip-N-Pour Packaging

USES

- Ornamental
- Groundcovers
- Herbaceous
- Greenhouses
- Lath & Shadehouses

PRODUCT NOTES

EPA REGISTRATION NUMBER
91234-85

ACTIVE INGREDIENT
Pyriproxyfen (1.23%)

FORMULATION
Emulsifiable Concentrate

IRAC NUMBER
7C

SIGNAL WORD
Caution

PACKAGE SIZE
4 x 1 qt

RESTRICTED USE
No

Refer to label for specific use restrictions.
